### **“Be a Santa to a Senior” Service Program, A Great Success**

Citrus County citizens are some of the most caring, compassionate and unselfish people in the world. Everyday great acts of kindness occur in Citrus County. Recently, the community came together as witnessed this past holiday season to help our area seniors in need. Citrus County Senior Care Services teamed up with Home Instead Senior Care to offer the “Be a Santa to a Senior” community service program.

Local businesses and citizens alike stepped forward graciously to donate gifts to those seniors alone and in need. Other people offered their time to wrap the many gifts donated and together the community was able to provide 175 seniors with a gift.

Citrus County Senior Care Services, Home Instead Senior Care and community volunteers take a moment to pose for a photo with the gifts before being delivered to area seniors.

Senior Care Services delivered gifts to homebound seniors throughout Citrus County while Home Instead Senior Care traveled the county dropping off gifts to assisted living facilities and nursing homes. Once again, the Citrus County community came together to benefit those in need.

If you would like to volunteer to help the many deserving senior citizens in our community, please contact the Citrus County Senior Care Services at (352) 527-5930.
