

Hurricane Mitigation Retrofit Rule 9B-3.0475

As of April 6th 2008, the Hurricane Mitigation Retrofit rule has been passed. Information about the Hurricane Mitigation Retrofit may be found at <http://www.boaf.net> .

There will be a minimum of 30# felt with a cap nailing schedule required per the law. This is for all site build single family dwellings built before March 1, 2002. An affidavit and pictures for the nailing of the sheathing will still be required before the final inspection. The inspection process will not change. Two (2) inspections will still be required.

Please review all the information on the web site. If you have any questions or concerns please call us at the building department at the following number:

Jim Baird, Assistant Building Director
