SUBJECT: DDS Project Status Report – January 2010

Land Development Code Update – The LDC critique has been accepted by the Board. The consultant (Duncan and Associates) has submitted a contract amendment and scope of work proposal for the LDC Appendices Update by Florida Engineering firm Wilson Miller. The contract was approved by the Board on May 8, 2007. Due to the cost of the LDC Appendices update, that portion of the process was phased over two years. Draft sections have been reviewed by staff for both the LDC and the appendices. A presentation on the draft was made to the Stakeholders Advisory Group on November 13, 2009, and it is expected that the draft language will be presented to that Group in 2010.

Watershed Management Plan – The Center Ridge (aka Central Ridge) watershed study is slated for completion in November followed by the Cardinal Lane watershed in December. The District has contracted with Jones Edmunds Associates, Inc., of Gainesville, Florida to conduct the watershed study for the Homosassa North/South watershed and the Homosassa South Fork watershed. A work order is pending. The District has contracted with AECOM, Inc., of Jacksonville, Florida (formerly known as Watershed Concepts) to create the digital flood insurance rate maps (DFIRMs). The public meetings to present the new updated digital flood insurance rate maps are scheduled to begin in May of 2010. Staff has prepared the application materials for the FY 2011 Cooperative Funding Initiative (CFI) for submittal to the District. A cooperative agreement contract was recently approved for the Lizzie Hart Watershed (project N-170). A coordination meeting with the firm of Jones Edmunds on the Crystal River watershed project was held in mid-November. A progress report presentation is slated for the February 23rd BOCC meeting.

Local Mitigation Strategy (LMS) Update – Staff continues to work to update the LMS as required by DCA and FEMA. Update is due in May, 2010 and draft has been submitted

to the DCA. Their feedback has been received, and the draft is being modified based on those comments. Staff has had ongoing meetings with the LMS Committee to prioritize mitigation projects.

Long Range Transportation Plan - Transportation Planning Services representatives of Tindale Oliver & Associates conducted a Consensus Building Workshop on the 2035 Long Range Transportation Plan at a meeting on December 1, 2009. The consultants have completed a series of stakeholder interviews and have completed the public workshops. A meeting of the Technical Advisory Committee was conducted on December 14, 2009. Adoption of the Transportation Master Plan is being scheduled for January/February 2010 in separate hearings by the BCC, City of Inverness and City of Crystal River.

Impact Fees – At their meeting on January 13, 2009, the BCC authorized staff to advertise for qualified consultants to prepare an update to the impact fee ordinance. Four consultants were interviewed and ranked by the evaluation team. The top two firms made presentations to the BCC on May 26, 2009, and the BCC selected Duncan & Associates for the contract. An overview presentation to the SAG was made on November 13, 2009. The Policy Memorandum has been submitted by Duncan Associates and will be submitted for review by the SAG followed by the BOCC.
